Cell Phone Policy Adjustments Review- Braxton reviewed the changes to the school cell phone policy. The council was pleased with the changes.

Ideas for School Improvement Plan- Braxton reviewed the current plan. They are finally fully staffed with aides. He discussed looking at moving funds from after school activities and summer school to fund more art classes. Braxton suggested moving the summer school program to more of an independent learning program instead of all teacher instruction to reduce the costs. There is low attendance at the summer school sessions. The teachers explained the current structure of the summer school program. Braxton will look into other options and bring them back to the next meeting. Another option for the summer camps that Braxton discussed was to invite the current 6th grade students to participate in the science camps with the Grand Staircase Escalante Partners. He is looking into other camps as well. If you have any other ideas for the school improvement plan get them to Braxton asap.

Parent Surveys- The stakeholder surveys will come out March 2nd-6th. Please help promote the surveys to other parents.

School Traffic Safety Concerns- The school district has a committee that addresses school traffic safety concerns. They asked if any of the council members had any concerns with traffic at KMS. There were no concerns.
